SUBLIMATION

SCIENCE ON HARD SURFACES

You may have learned in chemistry that sublimation involves a substance that changes from a solid to a gas and then back to a solid without ever becoming a liquid. In the hard surface sublimation industry, an image is printed onto transfer paper using dye-based inks and then transferred onto a specially-coated surface with heat and pressure. We manufacture bare products with a specialized formulated coating, and you sublimate any image onto those products. Getting started with sublimation on your own is easy! All you need is a computer, a printer with sublimation inks, transfer paper, a heat press and your Unisub and ChromaLuxe products.

3 SIMPLE STEPS TO SUBLIMATE

PRINT

Print finished artwork with sublimation paper and ink. Then, tape the print to the front of the substrate.

PRESS

Place face up and press in the heat press.

PRESENT

No need for lamination, once sublimated, Unisub and ChromaLuxe items are ready to sell.

SIGNAGE, EXTERIOR

From garden stakes to building signs, Unisub's exterior sign products are made with a UV resistant coating and are perfect for outdoor marking, lawn décor, advertisements, building numbers and more. Choose from a variety of sizes, with stakes included for yard signs and garden stakes, and holes for hanging or mounting building signs. Building signs do not include mounting or hanging hardware.

Visit www.Unisub.com for updated warranty information.

NEW

For more outdoor signage & material, see information in the ChromaLuxe section.

4794

BUILDING SIGNS

Material: EXT AL **Finish:** Gloss White **Thickness:** 0.045" / 1.4 mm

ITEM #	DESCRIPTION	DIMENSIONS IN/MM	QTY
4792	Building Sign - Rectangle Small	5" x 12" / 127 x 304.8 mm	10
4793	Building Sign - Oval	5" x 12" / 127 x 304.8 mm	10
4794	Building Sign - Rectangle Large	8" x 16" / 203.2 x 406.4 mm	10
4795	Building Sign - Decorative	11.5" x 15.25" / 292.1 x 387.4 mm	10
4796	Building Sign - Bunting	10" x 12" / 254 x 304.8 m	10

Mounting: Building signs do not include hardware. Holes are 0.25" diameter and will accommodate #8 concrete screws and concrete anchors. Use a masonry bit to drill pilot holes for the concrete anchors; install anchors and use #8 concrete screws to attach the sign to the wall. Hanging: Use ribbon, twine, or cable to create a hanging effect on a door or exterior wall. Thread the ribbon through the holes, tie a secure knot and hang on a nail or screw.

4796

GARDEN STAKES

CHROMALUXE METAL FRAMES

ChromaLuxe Frames, designed specifically for ChromaLuxe Metal prints, provide another display option for images presented on the highest quality print media. These aluminum frames use a channel design that is unique to ChromaLuxe, allowing metal prints to be displayed easier than ever before with either a traditional or more finished look. Available in all of our most popular sizes, ChromaLuxe frames can be used as either a classic inset frame, or on the back as a floating option.
